Launch strategy, manufacturing equipment, sales models, financing, management tools, merchandizing: all the solutions necessary to expand, create or optimize businesses are featured at Europain.

Artisans, retailers, industrials or currently retraining: all entrepreneurs from the bakery and pastry sector converge on Paris to attend the major event in the industry, from February 3rd to 6th, 2018.

THE PRO’S TESTIMONIAL
Joël Defives, Bakery Chef, holder of the ‘Meilleur Ouvrier de France’ distinction

‘Today, the figures for business and job creation are positive in the bakery industry. This is a sign that our trade is changing, shops disappear every day, but others take their place following consumers’ new movements and expectations. This dynamics is carried by creators and investors who spur emulation in professionals in the field and enhance desire from their clients. In order to detect these changes, entrepreneurs in the industry visit professional shows to exchange with their peers, meet the trade federation or specialists who can offer them support with their everyday challenges.’

A PROMISING MARKET IN EUROPE

The bakery and sandwich bar frequentation is growing in Europe. Especially in France where the frequentation and the average basket are the highest.
